“ A quiet man with a large presence. One of our fondest memories is one summer time BBQ at the Atteberrys. Bill was driving golf balls into the common area behind the house so a boy about 6 or 7 could find these treasures. Bill hit a ball left and while it was being retrieved Bill hit a ball right. This young man did not realize Bill was hitting the same balls over and over for him to find. Ultimately a bucket of balls appeared and Bill bought his own golf balls back. That little guy was thrilled. Fun to watch and so enjoyed the small grin on Bills face. Our thoughts and condolences to Laurie, Betty and all of Bills family. Sam and Susan Dolman

“ I have a great brother as kids we were a crazy pair but had a lot of friends and a whole lot of fun In 1962 a wind storm went through Newberg on Columbus day and Bill could not stand up he had to hang on to me to get to the car. As teens we were not so close. One day I heard a kid in my class calling me names and being disrespectful then I heard my brother tell him to shut his mouth or he(Bill) would shut it for him. The kid asks why? Bill say that is my sister. This has made me happy for years. I found out he did still love me. I do not remember when I finally meet Miss Laurie but she finally became my sister-in-law legally at a wonderful wedding I was priviledge to attend. Now she is my SISTER for ever. Love her and Mom, aka Betty. Always in my heart. Wild BILL is in heaven with his MOTHER , AND GRANDPARENTS where they always prayed for him to be.

“ We met Bill in the early 1990s in Camas, WA where he was building many homes in our neighborhood. We reconnected with him when he built our Eagle Crest home. While we ended up with a great home, we also added a friend that we golfed & socialized with. Bill was quiet, but you could always feel the warmth with his smile & hugs. We miss our friend & send our love to his family who cared for him. Cheers, Kathy & Jerry Moss thankyou for all your time with us, we enjoyed knowing brothers friends
